

Imp Club Spares Stock List and Prices – June-July 2026

Compiled by R.J. Allan

I have been working with Imps for nearly 50 years!

This is the list of spares stock held currently by The Imp Club Ltd. We buy new after market and “new old stock” spares from time to time at advantageous prices for sale to Club Members. This list includes stock acquired recently from Speedy Spares of Hove. We also stock re-manufactured parts, to which we apply our own quality control procedure. Please don't forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you – see the last section on this Web site. You can contact me and I will suggest a supplier who may be able to help.

If members have un-wanted parts for Imps or variants, or are able to source any quantity of new spares which may benefit other members, please contact the Spares Coordinator. Some parts are now in short supply and your help is much appreciated.

For a printable (PDF) version of this list click here: [stock.pdf](#). We recommend you view the on-line version to save paper and get our regular updates.

© **The Imp Club Ltd., 2005-2026.** The Imp Club Spares Scheme is a service offered by Imp Club Members to other Members. The Imp Club Ltd. does not accept any liability for the suitability of spares provided or for the use to which they are put after sale or information supplied. However all information and advice is given in good faith and passed on from original dealers' information or experience of Club members. Parts are bought as described and should be returned immediately if the customer is not satisfied (there may be a small handling charge to cover postal costs).

1 Imp Club Spares Stock List and Prices – June-July 2026

Here is the list of spares held currently by The Imp Club Limited. We try to buy spares from time to time at advantageous prices for sale to Club Members. Please don't forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you. If we can't locate a new part we may offer second hand items available from another Club member.

We are still experiencing difficulty in obtaining some items post Breaks-It! and suppliers are quoting out of stock with long lead times. There have also been a number of significant price rises.

Spares in this list are advertised at a cost which has been discounted to members for their own use. Since the Club is run on a voluntary basis for the mutual benefit of all members we have to ask that buyers declare their membership number. Cost of membership is, at the time of writing, £27.00 per annum for the UK (plus £4.00 once off joining fee). Please check Web site for latest amounts. For overseas prices please contact the membership secretary.

When confirmation of order is sent, this is to indicate that we have received your order. It does not indicate that a contract exists between us. We will indicate acceptance of your order, and hence a contract between us, when we send you an invoice. We have included this term to protect us in the case that a mistake has been made in pricing, we have inadvertently under priced goods, or we are no longer able to supply a particular product for some reason. In the case of a change of price, we will try to contact you first to ensure that the new price is acceptable.

Information given in this list includes part number, description, availability and price at date of publication subject to P&P. To order, please contact us or send a cheque payable to "The Imp Club". We are also able to accept most credit cards, PayPal or bank transfer.

For insurance and tax reasons, we only sell to Imp Club members and those of related clubs such as the Clan Club. We are VAT registered (number GB 141 9391 11) and all quoted prices include VAT. We can provide a VAT receipt if required.

If members are able to source any quantity of new spares which may benefit other members, please contact the Spares Coordinator as below.

1.1 NEW – Recent Items added to Stock

These are some of our recently available or newly re-made items.

- Foam Lucas lamp gaskets front and rear – Electrical
- Silicone radiator hoses – Engine
- Speedo heads MkI MkII – Dashboard
- Pedal rubbers – Brakes
- Door handle joints – Body

- Bonnet hinge joints – Body
- Headlamp seals – Body
- Gear stick upper and lower gaiters-boots – Transaxle
- Fan shroud – Cooling
- Saloon and coupé 1/4 seals – Body
- Electric oil pressure gauge and sender – Electric
- Courtesy light switch for door pillar – Electric
- Tank sender unit, early genuine – Electric
- MkII temp gauge – Dashboard
- MkII front wishbone bush, rubber – Suspension
- Wheel nuts and studs – Suspension
- Big end bolts – Engine
- Cooling fans – Cooling
- Baulk rings late – Transaxle
- Solex carb isolator non-asbestos – Carb
- Viton fuel pump cap seal – Carb
- Transaxle mounts – Transaxle
- Fuel filler cap seal nitrile – Carburettor
- Comp manifold gaskets – Engine
- Sump plug, magnetic – Engine
- Plastic no-warp door cards to cover yourself or ask Lesley – Body
- Modern fuel pumps – Carburettor
- 55", 57" Speedo cables (early) and 55" (late) – Dashboard
- Imp MkI front suspension bushes, rubber or poly – Suspension
- Complete bolt+nut fitting kits for Ginetta G15 front suspension – Suspension
- Standard silencers – Carburettor and Exhaust
- Hand brake operating-transfer levers – Brakes
- Rear hub nuts – Suspension
- Clip speedo cable to stub axle – Suspension

- RG385 kingpin tool – Books and Tools
- RG386 suspension bush tool – Books and Tools
- Rack centre gaiters re-made – Steering
- Rack end boot in nitrile rubber – Steering
- Bolt cable clamp for Strombergs – Carburettor
- Hose 2382 pump to 3-way bleed – Engine
- Oil cooler hose retainer to sump – Engine
- Stromberg cable bracket – Carburettor
- IMProved clip to hold choke cable onto the lever – Carburettor
- Clutch release bearing clips – Transaxle
- Hand brake adjusting nut and spring – Brakes

Spares Coordinator

Bob Allan

Shadewood Farm,
283 Chester Road,
Grappenhall,

Warrington WA4 2QE, UK

Tel: +44 (0)1925 267084 (all day weekends, monday and wednesday or 5-6pm other days)

e-Mail: spares@theimpclub.co.uk

If we haven't got what you want – please ask, as stock is changing all the time. If we *really* haven't got it, we will find someone from the Spares Panel who may be able to help.

Please note that we are now stocking re-manufactured components from Malcolm Anderson, Dutch Rootes, Mark Maynard and ourselves, which are included in this list. We also have new suppliers of brake components, radiators, gaskets, body seals, panels. Prices have been listed accordingly.

If you know of any new, un-used (new), Imp, Clan, Davrian or Ginetta G15 spares please contact the Imp Club via Bob Allan +44 (0)1925 267084 or any other Club official. Please note that some Imp based vehicles use Triumph Spitfire front suspension and steering components. We are also willing to stock these and can recommend suppliers.

If you are a supplier, have experience in sourcing equivalent components, re-conditioning or re-manufacturing, and are willing to help, we would be glad to hear from you.

The Rootes Archive Centre has a very extensive collection of original drawings and related information about the manufacture of Rootes cars, including Imps. These are used for historical research and also to confirm the correct specification of parts which can then be re-manufactured.

2 Abbreviations used in Imp Club Spares List

PnP	postage and packing cost (see code below)
cw	complete with
bkt	bracket
OS or RH	offside or right hand side of car
NS or LH	nearside or left hand side of car
acc	accelerator
assy	assembly
bkt	bracket
brg	bearing
comp	higher grade part (no guarantee of winning!)
compt	compartment
con	connecting
diff	differential assembly
dizzy	distributor
gskt	gasket
h-lamp	headlamp
hsg	housing
incl	includes
recon	reconditioned
sport	twin carburettor engine as fitted to Sport and Stiletto
std	“standard” engine, i.e. MkI, MkII or MkIII but not Sport
w-pump	water pump
w-screen	windscreen

3 Conditions Applied

Imp Club Spares (part of The Imp Club Ltd.) provides replacement parts for Hillman Imps and related classic cars as listed in these pages. This service is provided for *bone fide* members of The Imp Club and associated Clubs to whom these conditions apply. The service is by post or personal collection, we do not deliver. The list describes the goods available and follows the terminology used in Rootes parts publications. The items provided are new, re-conditioned, re-manufactured or new old stock (NOS) to original specification as far as we can ascertain (there is a separate quality control process). There are occasional “special offers” and “accessories”. Second hand items may be offered from various sources if this is the only solution available.

The prices shown in this list are accurate at the time of publication and valid for one month thereafter. Items marked with “*” may however vary in price at any time as we depend on our suppliers and their prices can change. We will quote an exact price to people making enquiries personally by letter, e-mail or by 'phone.

For payment, direct transfer from UK banks is usually free, but overseas bank charges may vary. We can also accept most cards and PayPal. We are VAT registered and all prices quoted include VAT if applicable.

Delivery costs are simply the price of normal Royal Mail postage plus VAT, usually first class or Parcel Force if this is advantageous plus a small packing cost if required (we aim to use re-cycled packaging whenever we can), see below. We may choose to add compensation cover to higher value orders (over £20) to protect against potential loss.

Any member of The Imp Club and associated Clubs is entitled to use this service and to cancel or change their order prior to its dispatch. Once dispatched or delivered, provided the parts have not been fitted or otherwise “used”, we will refund any un-required parts returned at any time at the purchase price (if within one month) or at a price to be agreed at a later date. Postage and any other “one off” charges however cannot be re-funded.

New, re-conditioned or re-manufactured parts carry a like for like replacement warranty for 6 months from the date of purchase. Any problems or complaints must be notified to The Imp Club at its official business address or by e-mail within one month of ordering.

4 Postal Rates from April 2026

UK postage is charged at the following standard rates for 2nd class Royal Mail post or equivalent. Unfortunately, because we are VAT registered, we have to charge VAT on postage. For instance for a set of front brake shoes at £24.00+SPB you should send £29.00 which includes the Royal Mail cost for a parcel up to 2kg plus VAT. Normal 1st or 2nd class post is used for small items unless you specifically ask for faster delivery. Please include at least a first class stamp with your order or add on the price as calculated below.

There is at present no handling charge, but we may choose to add a small amount (typically 1% of the value) to cover accidental loss or damage on larger orders.

Since the closure of a number of local post offices in 2017, we are using alternatives such as Click and Drop, Parcel Force and DHL collection for parcels over 2kg. Prices are quoted on an individual basis and include a compensation option. We also try to distribute large packages via Imp Express, i.e. the area centre network or at an AGM, committee meeting, National Weekend or other event.

For overseas postage we try to send separate parcels with a maximum weight of 2kg if this is cheapest. We will also do this in the UK if it is cheaper or easier packaging. Parcels posted to USA currently have to go by UPS PPDP or Click and Drop PPDP, prices to be quoted including tax. We may work with an independent exporter if beneficial.

Royal Mail Letters (standard and L=large, UK only), e.g. if your order will fit in a Jiffy bag.

LA	100g	1.10			
LLA	100g	1.90	LLB	250g	2.30
LLC	500g	3.00	LLD	750g	3.30

Standard Parcels (UK only) are now in two categories: (S=small) up to 45cm x35cm x8cm (or 16cm x16cm x16cm) and 8kg; (M=medium) up to 61cm x46cm x46cm and 20kg. Parcel Force Worldwide services are available up to 1.5m length and 30kg, e.g. Parcel Force 48h.

A special deal applies to small parcels up to 2kg – second class postage is only £4.25 +VAT. We will use this service where possible or tracked 48 for higher value items.

SPA	1kg	–	SPB	2kg	5.10
MPA	1kg	–	MPB	2kg	8.40
MPC	10kg	10.50			
48hA	2kg	–	48hB	5kg	13.60
48hC	10kg	15.70	48hD	20kg	18.85

We will usually send items over 2kg by Click and Drop 48h which includes VAT and compensation for £70. Items over 2kg or parcels to overseas destinations will also go by Click and Drop except by special arrangement. We use Parcel Force or DHL for large parcels and may choose to add additional compensation options with these services if your goods are valuable. We may use a delivery broker with compensation for large orders, particularly overseas, if this gives us the best available rates.

Very large or fragile items such as panels, windscreens and radiators must be collected from the Spares Coordinator or delivered by Imp Express.

5 Certificates, Technical Books, Workshop Consumables and Tools

From time to time technical books and tools become available when we buy in spares. We have listed the current stock with a guide to condition: New, A, B, C where A, B and C indicate a used item in condition ranging from “nearly as new” to “damaged but complete”. If you wish to acquire or pass on a particular technical book or tool please contact us.

Heritage Certificates

It was announced by the Government in the Spring 2014 budget that from April there was to be a rolling exemption on VED, that means historic vehicles over a certain age will be tax free. You still need to complete the on-line DVLA registration as a “historic vehicle”, but it won’t cost anything if you can prove that your Imp was build before January 1974. Next year it will be Jan’1975 and so on.

The Federation for British Historic Vehicle Clubs (FBHVC) issued a press release on this which was re-produced in the May issue of Impressions. You will need evidence of the date of manufacture of your Imp if there is any possible doubt about it.

Working with the Rootes Archive Centre Trust, the Imp Club is able to issue a Heritage Certificate for your Imp or any other Rootes vehicle. We are registered with the DVLA V765 Scheme. We will provide an individual Certificate and Car Details Sheet. These include precise dating information plus a variety of other information authenticating the vehicle as it left the production line. It is a combination of information from factory records and other sources. A Heritage Certificate is a valuable addition for a cherished vehicle and essential if you are trying to confirm its true identity. We can even print an extra information sheet with history and photographs provided by you.

You can see a sample and download an order form from the Rootes Archive Centre Web site: <http://www.rootesarchivecentre.org.uk>. Just click on the link to “Certificates”.

Prices: Heritage Certificate including Car Details Sheet: £50.00 including PnP; Extra sheet: £10 = total £60; Overseas: please add extra £5.00 to cover postage etc.

Books

Price depends on condition as shown in the table below. Please ask for availability as stock changes rapidly (parentheses indicate available stock at time of writing). Note: WSM141 is the later Imp Workshop Manual. New parts lists are currently not available. We will try to provide the book most appropriate for your car.

Author	Title (edition)	Price for condition (UK pounds):

Tools

Some tools are available from time to time with condition and price as indicated below (number in stock in parentheses). Original Churchill workshop tools are extremely rare and understandably fetch a high price. There was a description of how to make RG355 by Alan Turner in Impressions Apr'1993, so you might be able to get a back issue and try it yourself.

Manufacture	Description	Price for condition (UK pounds):				
		NOS	A	B	R *	H
9221600	Sparking plug spanner	15 ()	12 (2)			
7103171	Jack with handle		15			
7103652	Handle only					
72270728	Tool bag	10				
RG188/3	rear hub securing plate from RG188C, D or E		25			
RG284	track rod taper knuckle remover		15			
RG353	timing chain support	32 ()	20 (1)	10	16 (13)	
RG354	timing chain tensioner retainer	32 ()	25 ()	15	30 (1)	
RG355	cylinder head bolt wrench	80 ()	70 ()			
RG357	valve guide remover-replacer		15 ()			
RG358	valve guide reamer 9/32"					
RG359	rear engine mtg bush remover- replacer		20 ()			

RG359 ?	diff brg replacer (use with RG363 and RG4221B-8)					
RG363	diff brg (small) replacer adapter (use with RG359)					
56	diff brg remover					
RG365	g- box assy jig complete		350	250		
RG366A	diff oil seal and input shaft ball brg replacer					
RG367	reverse gear and pinion nut wrench		15			10
RG368	needle brg sleeve remover-replacer	65	40	20		10
RG369	needle brg remover-replacer					
RG370	pinion brg cup replacer adaptors					
RG372	clutch shaft oil seal replacer	15	15	10		
RG373	diff adjusting nut wrench					10
RG374	clutch plate centraliser and spigot bush replacer		35	10	25 ()	
RG377	universal joint 1/2" AF		15			10
RG379	rear hub brg assy tool		80 ()	50 ()	50	
RG383	diff oil seal remover		20	15 ()		
RG384	clutch shaft oil seal remover		20	15 ()		
RG385	kingpin bush remover-replacer	20	16 ()	10	15 (15)	
RG386	suspension arm bush remover-replacer	20	16 ()	10	15 (18)	
RG408	front suspension gap gauges		75			
RG4221B-8	diff large brg replacer adapter					
RG534	bezel nut wrench					
RG535	rubber mldg glazing tool					8
RG536	crankshaft spigot bush replacer		30	15		
550	driver handle					
RG613A	valve spring compressor		100			40
RG6513A-3	valve spring compressor adaptor		10 (1)			
1414	synchro hub retainer clips (pair)					
1602	Baty dial gauge set					
RG4221B-8	code 29 adaptor for diff brg replacement (large)					
D.143T	tappet remover					
	donut clamp (stainless)					10
	14mm spark plug thread tap		5 (1)			
	TOOLMEX 24pc AF+Metric combination spanners	25 (1)				
	Britool NA349B 19pc socket set metric only		(1)			
	mixture adjusting tool Stromberg CD3	12 (1)				

* Items R are replica made by The Imp Club. Items H are Home Made (probably by former Club members) or after market.

RG374 is described: *an immediate engagement of the Clutch Shaft Spigot in the Crankshaft is achieved using RG374 when re-assembling the Engine to the Transmission. By using two diameters for location the Tool centralises the Clutch Driven Plate in relation to the Flywheel. The Tool can also be used in Hydraulic application to remove the Crankshaft Spigot Bush.*

Oils

The former Association of Rootes Car Clubs, which include The Imp Club, secured a 10% discount deal with Witham Oil & Paint Ltd. for supply of oil from their Qualube range and other supplies to Club members. Their Web site is here: <https://www.withamgroup.co.uk>. Products of specific interest for use with Imps include the following.

2050: Classic 20w/50 oil – engine oil, 20w/60 also available;

EP80: oil – gear oil for transaxle or steering rack;

BF: Brake fluid – DOT 4;

BA: anti-freeze – universal blue type;

LG400: grease – lithium multi-purpose;

WSG: workshop granules –

Qualube products are available via the Sunbeam Talbot Alpine Register Web site: <https://sunbeamtalbotalpinereg.co.uk/shop/>.

You will find that these products are significantly cheaper than others in high street shops.

Workshop Supplies

We are working with Peter Lewis, a Club member who runs Chemsol UK. He is able to provide a range of environmentally friendly chemicals for work on classic cars. We have so far identified the following which might be useful. Please let us know what you think and what quantities might be of interest. Also let us know if there is anything else required.

Rust Converter – turns light rust black and ready to paint. £11.50+VAT per 1 litre.

CI Rust Preventer (water based) – protects bare metal for some time, e.g. after blasting or sanding – £12+VAT per 5 litre ready to use. It is also available in concentrated form which can be diluted with water at a rate of 5:1 or more, £11+VAT per 1 litre.

CS52 Penetrating Rust Preventer and de-water – to be used as a releasing agent or oil film or sprayed on electrical components to maybe make them work – £15+VAT per 5 litre or £4+VAT per 1 litre.

De-Greaser (water based) – make your engine, transaxle or workshop spotless; substitute for elbow grease? Price TBC.

Trigger spray bottle – £2+VAT

6 Engine and Auxiliaries including Cooling

New: Engine oil special deal, see Section 5.

All gaskets and hoses are available newly made. Pistons, rings, bearings and valves are also now available in certain sizes.

Silicone radiator hoses are now available from The Imp Club at £120 for the set of three.

Note: We usually have a range of re-conditioned radiators in stock and also re-con water pumps. Rads and pumps are available on an exchange basis – there is a surcharge, re-fundable on return of the old part, and may be additional postal cost. Unfortunately the quality of some of the old ones returned means that there has been a price increase. Please try to return good ones!

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately and a re-fund or replacement can be arranged.

7105352	air ducting 82mm (per metre)	ask	25.00 *
	wire clamp for above	to order	2.50 *
7210645	control cable outer only	1	

** To fit the TX1 valve: put the valve in the hose so that the cable casing will fit the clamp. You can pass the inner wire through the hole in the metal piece with it on the lever of the valve and then clamp it in place using a nipple.

For more ideas take a look on the Forum.

7 Carburettor, Fuel and Exhaust

Note: Many members have reported problems with un-leaded fuel, these are common to all classic cars. We have O-rings, tubes and hoses in IMPROVED materials to counteract this.

The problem is that ethanol is being added to make it so called "environment friendly". This can however corrode many metals, destroy your fuel tank lining and de-grade rubber based elastomers and some plastics. The FBHVC have researched this and we will do our best to supply components using the most suitable materials available as recommended by them.

WARNING: If you leave your car standing and the fuel evaporates, it will leave a green coloured resin inside your carb. This is extremely difficult to remove!

We have a number of Stromberg and Solex kits in stock fitted with Viton O-rings and tubes. We also keep the fuel transfer tubes for Solex, these and O-rings and diaphragms for Stromberg are available separately.

We now have fuel pump repair kits and brand new IMPROVED pumps in stock which are claimed to be E10 tolerant.

Cables of various kinds have been re-manufactured, and available in lengths either standard or to order for special applications.

We usually order items in bulk, so that we can pass them on to Imp Club members at a favourable price.

8 Transaxle and Gearchange

New: Transaxle oil special deal, see here 5.

Note: Original clutch covers are now very hard to get. If you have any used but reasonably good units please keep them for re-conditioning. Laycock diaphragm type are only available from time to time. We can at present supply Laycock and Borg and Beck diaphragm and B&B spring and lever clutches *note, the ones we supply are the correct ones for the Imp*. Alternative manufacture such as QH and LUK are also available from time to time, please ask. Please also keep all clutch driven plates for re-conditioning.

Release bearings new and all seals and O-rings for repair and spigot bushes are currently available.

Beware: I'm not sure why some Internet sellers try to make you buy the wrong type of clutch slave cylinder. Check it out! We have the correct ones.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you

are not happy with what you have received, please contact us immediately.

9107099	BS845 O-ring for inspection cover	45	90p *

** To fit, push the metal collar into the ball cup aligning with the pilot hole. Drill all the way through with a sharp 3/16" woodworking drill bit. Fit to lever, plastic side down and tap the pin through so that it is central and held tightly. Then replace in the assembly with the spring and cap on top. Finally rivet back together. Remember to ensure the ball bearing is at the front. Gary has done a YouTube video showing the whole procedure here: <https://www.youtube.com/watch?v=10E515eZWYy>.

9 Suspension and Steering

All wheel bearings and other bearings are currently available. We still occasionally have the original spec rear wheel bearings, but they can be quite expensive.

Bolt packs for suspension (16x bolts, nuts and washers all in BZP) does front and rear are available at £33.00 plus PnP. We can also supply them in sets for front only (10x bolts, £22.00) or rear (6x bolts, £11.00). A complete car set with bolts, screws and washers for suspension including the brackets to floor is £46.00. These are "S" class tensile the same as the original.

Complete bolt+nut fitting kits for Ginetta G15 front suspension are also available. All bolts are also available separately. Some stainless bolts also to order at approx 2x price, please ask (not for suspension).

Unfortunately there are very few front shock absorbers available. We have a few rear shocks. We will maintain current prices as long as possible. Special requirements can be catered for including re-conditioning and springs. Alternative suppliers include ProTech, SPAX, AVO, GAZ, etc.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

* Quentin shows us how to replace a rack gaiter on YouTube here: <https://www.youtube.com/watch?v=wx5nZN2qBeI>. OK, so its an Enfield 8000 Electric City Car not an Imp, but its the same rack. He got his dimensions completely wrong, they should be 1/2" and 3/4" spanners. Unfortunately the gaiter we sent had a manufacture flaw, so we met in Coventry to swap it... Therefore you get to see the whole exercise twice. Clearly there are different ways to do this... Remember to use EP80 gear

oil (same as in the gearbox), grease doesn't work in Imp racks!

10 Brakes and Controls

Note: Most brake service parts are available new to order. Front and rear wheel cylinders and repair kits are in stock. Master cylinders are available in a range of sizes for servo or non-servo cars. We only stock the best types, not the cheapest! New standard and Goodridge style hoses are available for all requirements.

Despite recent price increases, we source these items in bulk so that we can pass on savings to Imp Club members.

We also stock all brake pipes in salt resistant Cunifer-10 material (10:90 nickel:copper). Clutch and fuel pipes are available in the same material. These can be made up to length for special orders, e.g. Bond 875. All components are supplied ready to fit.

Our modern high friction brake shoes are an alternative to servo or disc brakes. We can also source front disc conversions if desired.

Note: We re-condition items such as brake shoes and provide a variety of friction materials, please ask. Re-conditioned items carry a replacement warranty for six months from time of sale.

Because of shortage of good Imp rear shoes, we may supply sets which are a mix of Imp and Allegro shoes. The Imp shoes with the rectangular slot must be used for the hand brake transfer levers, the Allegro shoes have a larger irregular shaped slot. **Beware** some Internet sellers do not know the difference!

Disc brake conversion kits can be obtained from:

Robin Human – Intelligent Metals on e-Bay

Good used Items

11 Electrical Components

Note: Most other electrical service components for both standard road and competition cars can be obtained new to order. Prices may vary. I try to ensure that electrical parts are good quality British NOS where possible. Beware of cheap imports sold on the Internet!

Foam lamp gaskets are available again, correct colour and specification made using original Lucas tools. So a lot cheaper than those on the Internet because we own the original tooling. Lenses for front and rear lamps are also available.

14 Body Fittings

We have sourced modern laminated and heated glass windscreens and are currently investigating re-manufacture of rear screens (hatch).

Heated screens carry a warranty of 90 days on the element. Water is the biggest problem for heated glass. It is very important that no water can get to the edge of the glass or the element will start to fail very quickly. All rubber fit screens must be sealed with the correct grade of non-setting windscreen rubber fit sealer, such as INDASA. If this is not done the warranty will be void. For wiring diagram [click here](#).

Screens can be posted within UK at an extra cost of around £44. For shipping overseas please ask. We may refer you to our supplier.

Door cards and rear trim panels are now available in an IMProved plastic material that will not warp when it gets damp. You can cover them with your favourite vinyl or buy the kits from Lesley Smith (see below). Rear door pocket base and roof trim is available in the same material.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

We are able to supply a full range of grommets and bungs to fit the Imp body shell. You will need to

tell is the size and qty required as cars may vary. We buy trim clips, o-rings, grommets and similar items in bulk, so that we can offer them to Club members at near to cost price. We can add to the range for special requirements, please tell us what you need including the size. The types available are as follows.

open: standard rubber grommet, e.g. for brake pipes and cables;

blank: rubber to fill holes, can be perforated for pipes, cables etc.

PVC: PVC blanking, e.g. for floor and sill bungs;

wiring: Lucas soft rubber type for harness, hoses etc.

sleeve: special, e.g. for wiper rack tube through bulkhead, may be hard to obtain.

Grommets etc.

If your company is not listed correctly here or you know of other reliable suppliers, please let us know !

17 The Specialist Panel

In addition to our own spares business, the Imp Club Ltd. aims to offer a wide range of advice on spares and services to owners of Hillman Imps and derivatives. In order to do this we have created a *Specialist Panel* of professionals who have long experience of working with Imps or supplying parts for them.

Information on what is available from the Panel will be reviewed from time to time, as will the accumulated information on alternative parts from other cars and parts re-manufactured or requirements for sourcing. If you know of anyone offering particular services, or yourself wish to feature in this list, please contact the Spares Coordinator.

The following information is given for each panel member.

Title

Name:	Name
Contact:	Postal address (snail Mail)
Telephone:	Other contact (Tel, Fax, e-Mail, Mob, Web, ESP, Pidgeon, etc.)
Description:	General area of specialisation, e.g. body panels, engines, gearboxes, stuff, competition work, etc.

Auto-Trim

Name: Auto-Trim Systems
 Contact: Ask for James Williams (Imp Club member). Forward Park, Sheene Road Gorse Hill Industrial Estate, Beaumont Leys, Leicester LE4 1BF
 Telephone: Tel: 0116 216 9920; e-Mail: sales@auto-trim.co.uk; Web: <http://www.auto-trim.co.uk>
 Description: This family owned business established 1968 has been trading for nearly half a century specialising not only in car trimming and renovation of car interiors but also in marine, bus and coach, light aircraft, motor sport and many other miscellaneous fields. We service the trade as well as the private sector, and we have an excellent reputation amongst all. Our aim is to keep giving a very high quality of service with that professional approach our customers have come to expect. We are ever expanding and have in recent years been appointed main distributorship for Recaro and their UK repair centre, we also distribute many other industrial seats. This not only makes us a trim centre but also a major automotive seat supplier to the UK and abroad, the supply of seats is handled through our seating division "Capital Seating" which was formed in 2001 to handle the ever increasing demand on our resources. All our hard work was rewarded in 2006 by being the winners of the Coutts Banking "Best Family Business" northern region.
 Hours: Normal work hours

Bestek

Name: Bestek Crawley Ltd.
 Contact: John Best, Tinsley Green, Crawley

Will Parry

Name: Parry Precision Components

Contact: Will Parry, Aberystwyth, Wales

Telephone: Mob: 07716 428082 e-Mail: will@parrycomponents.co.uk
Web: <https://parrycomponents.co.uk>

Description: Handmade prototype and replica mild steel exhaust manifolds. Our manifolds are hand shaped, gas welded and brazed. These techniques allow high flowing and low stress bends of varying radius, without the multiple weld joints found on manifolds produced with mainstream production techniques. We can re-create a hand made manifold for a classic vehicle from the original part where a modern manifold would not be in keeping, or help with the design of a system to suit your performance engine build.

Hours: Monday-friday, 8:30am to 5:30pm

Reg Patten
